A Thousand Years

RADIORADIO

I could stay and gaze here at the stars
For a thousand years
My love is deeper, goes further than the light dear.
Even though I've said too many things,
Shed so many tears,
My love is certain,
Unshaken by the years.I know now love
You are all I've ever wanted, ever wanted
You are my "ever wanted, ever wanted"
I know now, I know nowI could stay and gaze here at the moon
For a thousand years
My love shines brighter, is stronger than the pull.
Even though the sun will rise again
And fill us with regret
You'll find my love is a moon that never sets.I know now love
You are all I've ever wanted, ever wanted
You are my "ever wanted, ever wanted"
I know now, I know now.
