

# LA Water (Josh Boardman remix)

## Helmet

In LA sun shine's all the time  
You know you might get burned  
I haven't found now for a while  
The weather here is always warm And in the end the sun never rains  
I'm not the only one  
Evaporated in the heat  
I don't need oxygen no need And if you notice what you are  
You know how to get it  
You know you will get it Man all this sun gets me so high  
I reach down to the bone inside  
I never go there i remained  
I know i might be revived And now i wont' freeze now for awhile  
'Cause everyday is always warm  
And everyday is nice [Humming] In LA i don't move too fast  
All this life just beating past  
I'm out of time The outside world does not exist  
Nobody notices, it's fine And I can't leave now for awhile  
And I won't freeze now for awhile  
'Cause everyday is always warm  
And everyday is always nice
