# We Rule the Night

## Ten

We rule the night, we rule by day
For we believe in time-honoured ways
We fight for truth, that peace may reign
We hold the scales of justice, keepers of the faithWe rule the night ten thousand voices
We rule the night like tameless horsesWe rule the night, with fire and flame
Those who resist us lie in our wake
So sound asleep our children dream
Safe in the arms of something far beyond beliefChrorus:
This flag is battletorn, we rule the night
We conquered by the sword, we rule the night
From the dark to the light we roar like a thunderstorm
We rule the night
Our sacred race was born, we rule the night
Immortal dogs of war, we rule the night
And we stand by the oath we swore
Till the last ones falls, we rule the nightWe rule the night, protect our homes
Pure were the righteous against our foes
Our blades are stained, their blood remains
As a remembance of the lives we had to takeTo rule the night this rock of ages
We rule the night as battle rages
We rule the nightRepeat Chorus Till fade
