

That's Wrong

Dudek Finnigan Krueger Band

The faithful try so hard to seek
Their master's way and goodness meek
Should life be lived by sacred word
With silent cries of love unheard

That's wrong little baby
That's wrong little baby
The word finally heard
Came up from this earth

Shall we whisper, moan and pray
Smother love and pass the plate
But look to someone up above
Believe in signs, a lamb, a dove

And that's wrong baby
That's wrong baby
The word quiet no more
It will fly, it will soar

(solo section)

Oh the night is dark, the path unclear
But with this news we do not fear, not me, uh uh
Gettin' it straight, each one alone
Then we may approach the thrown

And that's right people
It's only right people
My light shines from within
And it sure ain't no sin
