

Older Than My Years

Cherie

You say that you are leaving
They say that I'm too young for you
You say it's for the better
And that one day soon I will understand I believe that I know you like no other lover
I believe My love is stronger than my years
It's wiser than your fears
It's telling you to stay and not to go
Love is wisdom from the heart
It tells us who we are
So look beyond the years
I'm older then my tears You say that life's a journey
They say I'm only at the start
You say it's the beginning
But it feels like the end
Your friends will be apart And I believe that you know me like no other lover
Do you believe? My love is stronger than my years
It's wiser than your fears
It's telling you to stay and not to go
Love is wisdom from the heart
It tells us who we are
So look beyond the years
I'm older then my tears Don't let my innocence deceive you
Because there's more to me than meets the eye
Don't let these feelings turn to sorrow
There's no good in goodbye My love is stronger than my years
It's wiser than your fears
It's telling you to stay and not to go
Love is wisdom from the heart
It tells us who we are
So look beyond the years
I'm older then my tears Love is wisdom from the heart
And shows us who we are
So please look beyond my years
I'm older then my tears
I'm older then my tears
