

# Barefoot Blue Jean Night

Jake Owen

A full moon shining bright  
Edge of the water we were feeling alright  
Back down a country road  
The girls are always hot and the beer is ice cold

Cadillac horns on the hood  
My buddy frankie had his dad hook him up good  
Girls smiled when we rode by  
They'd hop in the back and we'd cruise to the riverside

[chorus:]

Woah never gonna grow up  
Woah never gonna slow down  
Woah we were shining like lighters in the dark  
In the middle of a rock show  
Woah we were doing it right  
Woah we were coming alive  
Woah yeah caught up in a southern summer  
Barefoot blue jean night

Blue eyes and auburn hair  
Sitting looking pretty by the fire in a lawn chair  
New to town and new to me  
Her ruby red lips were sipping on sweet tea  
Shot me a look like a shooting star  
So i grabbed a beer and my ole guitar  
Sat around til the break of dawn  
Howling and singing to our favorite songs

[chorus:]

Woah never gonna grow up  
Woah never gonna slow down  
Woah we were shining like lighters in the dark  
In the middle of a rock show  
Woah we were doing it right  
Woah we were coming alive  
Woah yeah caught up in a southern summer  
Barefoot blue jean night

Woah never gonna grow up

Woah never gonna slow down  
Woah we were shining like lighters in the dark  
In the middle of a rock show  
Woah we were doing it right  
Woah we were coming alive  
Woah yeah caught up in a southern summer  
Barefoot blue jean night

Woah, barefoot blue jean night  
Barefoot blue jean night  
Barefoot blue jean night  
Barefoot blue jean night  
Barefoot blue jean night
