

# Sink With You

## Underoath

This is my emergency  
Let me feel your apathyAre we swimming in the same ol' sea?  
The one where you don't care to rescue me  
There's water in my lungs again  
The moon's reflection has no end  
The taste of salt my biggest sin  
The taste of you my only sinYou can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okayYou can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay  
This is my emergency  
Let me feel your apathyHold me underneath the cold moonlight  
Where I believe every lie you told to me  
Tell me once more that I'm safe  
I never believed, so give me faith  
The fear of death is sinking in  
I'd rather die than sink with youYou can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okayYou can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay  
You can't make it okay
