

Dead End

In Flames

Save all your prayers
I think we're lost today
There's no morning after
No one's around to blame

I'm not afraid to bleed
But I will do it for you
We'll start among hypocrites
The melody of our time

So say goodbye to the world
We are the dead that walk the earth

Scream your lungs out
Await for laughter
You don't have to wait forever
It's the next disaster

What decides when you've lost the war
When the first man falls
Or when they erase it all

We're too numb to feel
The downfall starts right here
Hold your breath and swim
Swallowed by life's tear

In times of make believe
No one really seems to care
Maybe I should care less
'Cause I will die too

So say goodbye to the world
We are the dead that walk the earth

Scream your lungs out
Await for laughter
You don't have to wait forever
It's the next disaster

What will it take for us to realize
The more we provoke
Winter will come twice

Save all your prayers
I think we're lost today
There's no morning after
No one's around to blame

Scream your lungs out
Await for laughter
You don't have to wait forever
It's the next disaster

Scream your lungs out
Await for Laughter
You don't have to wait forever
It's the next disaster
