

# Resolution

## Emigrate

Lost all self control  
Don't know where to go  
Take a piece of soul  
In my mind I take a hold Confusion, solution  
Conclusion, resolution  
I can feel, I can see  
The resolution, I do Put myself through tests  
Move from east to west  
Fight for what is best  
Can't forgive the token stress Confusion, solution  
Conclusion, resolution  
I can feel, I can see  
The resolution, I do, I do I can see the resolution  
I do, I can see Strange to lose the show  
Take it fast then slow  
Captive to myself, I can see, I do  
I can see the resolution
