

# Jupiter

## Earth, Wind & Fire

Searching in the sky one night, while looking for the moon  
I viewed a mighty light approaching in a zoom  
Need was there to tell someone of my discovery  
Fifteen seconds later, a light appeared in front of me  
To my surprise, there stood a man with age and mystery  
His name was Jupiter and came to visit me  
The name is Jupiter, from the galaxy  
I came to meet you, to make you free  
Deliver to you a flower from  
A distant planet, from where I come  
Keep your eye on Jupiter, such beauty in the sky  
We will wait for your return in the by and by  
Keep your eye on Jupiter, memories we shall fulfill  
Just to view a brighter day, and do a righteous will  
Watching and considering my visual state of mind  
The flower fragrance help reveal to me the sign  
The sigh of love, I had confessed to live and really know  
The sign of love which I had failed my fellowman to show  
The name is Jupiter, from the galaxy  
I came to meet you, to make you free  
Deliver to you a flower from  
A distant planet, from where I come  
The name is Jupiter, from the galaxy  
I came to meet you, to make you free  
Deliver to you a flower from  
A distant planet, from where I come  
The name is Jupiter, from the galaxy  
I came to meet you, to make you free  
Deliver to you a flower from  
A distant planet, from where I come
