Happy Days

Johnny Fang

When I wake up on a day
Where my mood is so great
I feel this day so fine
Where I can think straight
There are no worries
Challenges and problems and all these things
Which make my life like crazy you know

Gonna get up from my bed
And then go downstairs
Don't wanna work today
Oh oh my who cares
This day is freedom
Grab the chance to sing and
Dance with me now
If you don't do this then I'll like to say

Enjoy the happy days
When they come to you here
With some nice shots vodka drinks
Or a cold beer
Life is so short be happy
And rejoice yourself
'Cause you only live once dude

The sounds that I can hear
Make me free and relax
No pressure and no stress
No troubles and plagues
Gonna eat some crackers
Go for a run and
then get a perfect tan
And listen to fav'rite album tracks

When I wake up on a day
All the things I can see
Golden sand palm trees blue sky
Sunshine play fressbee
The days are full of blessings
That so awesome I let you know

The happiness shines out of my heart

Enjoy the happy days
When they come to you here
With some nice shots vodka drinks
Or a cold beer
Life is so short be happy
And rejoice yourself
'Cause you only live once dude (2x)

Oh happy days stay with me
I love you so much can't you see
Have to enjoy the days of fun
'Cause tomorrow is promise to no one

So enjoy your happy days
When they come to you here
With some nice shots vodka drinks
Or a cold beer
Life is so short be happy
And rejoice yourself
'Cause you only live once dude (2x)

'Cause you only live once dude
