I Feel It All

Feist

I feel it all, I feel it all, I feel it all, I feel it all
The wings are wide, the wings are wide
Wild card inside, wild card inside
Ooh, I'll be the one who'll break my heart
I'll be the one to hold the gun
I know more than I knew before
I know more than I knew before
I didn't rest, I didn't stop
Did we fight or did we talk?
Ooh, I'll be the one who'll break my heart
I'll be the one to hold the gun
I love you more, I love you more
I don't know what I knew before
But now I know I wanna win the war
No one likes to take a test
Sometimes you know more is less
Put your weight against the door
Kick drum on the basement floor
Stranded in the fog of words
Loved him like the winter bird
On my head the water pours
Gulf stream through the open door
Fly away, fly away to what you wanna make
I feel it all, I feel it all, I feel it all, I feel it all
The wings are wide, the wings are wide
Wild card inside, wild card inside
Ooh, I'll be the one to break my heart
I'll be the one who'll break my heart
I'll be the one who'll break my heart
I'll end it, though you started it
The truth lies
The truth lied
No one knows
And lies divide
Lies divide
