

# Deep Web

## Death Grips

[Verse 1]

Both ends of my candle counting paces  
Never stop chasing each others faces  
I'm the mask that separates them  
Bridge their sole desires cravin'  
Don't make me take my face off  
Show you why I hate soft  
Let flock of sheep get shaved off  
Lynched from their halos[Hook]  
Call me crazy, but I swear my line's been tapped  
In my glass house prepared for surprise attack  
Realized I held the blade inside my back  
Omega megalomaniac  
In my glass house prepared for surprise attack  
Realized I held the blade inside my back[Verse 2]  
I'm the coat hanger in your man's vagina  
Manic downstroke on fire  
Beat it, bitch, all black, can't fade it  
Beat it, bitch, I came to brang it  
Fuck bourgeois, ODB raw  
Your pearl white teeth, my Yellowman jaw  
Say only what you think I know you should  
Hate myself more than you ever could[Hook]  
Call me crazy, but I swear my line's been tapped  
In my glass house prepared for surprise attack  
Realized I held the blade inside my back  
Omega megalomaniac  
In my glass house prepared for surprise attack  
Realized I held the blade inside my back
