

# Shepherd of My Heart

[Johnny Cash](#)

You're the shepherd of my heart so treat it tenderly  
It's a heart that needs your ever loving care  
You're the shepherd of my heart until eternity  
Lead it not into the valley of despair While it's in your keeping, guard it with your love  
Shelter it from harm along life's way  
You're the shepherd of my heart and, darling, honestly  
It's a heart that will not ever go astray You're the shepherd of my heart so surely you must know  
You have but to speak and my heart will obey  
It's at your command, my dear, because it loves you so  
So, my darling shepherd, guide it where you may If it be green pastures or a rocky road  
It will follow you and not ask why  
You're the shepherd of my heart until the trumpet blows  
And I go to meet the shepherd in the sky
