

# Another Night for Goodbyes

## The Dollar Canon

Should we wait for you?  
Everyone is counting on this  
Everyone is counting on you  
To come through  
We're going to need an answer,  
    Tonight  
    Not ready yet  
We're going to need a little more  
    Time

You'll need another morning to set,  
    Things right  
You'll need another night for  
    Goodbyes  
You'll need another night for  
    Goodbyes

When you said, "There's no time for  
    This,"  
Is that what you meant?  
Is that what you meant?  
Is that what you meant?

So long, it's so long to be gone  
    It's so long  
    it's so long to be gone  
We're going to need an answer  
    Tonight  
We're going to need...an answer  
We're going to need an answer  
    Tonight  
We're going to need an answer  
We're going to need an answer  
    Tonight

When you said, "There's no time,"  
Is that what you meant?  
Is that what you meant?  
Is that what you meant?
