

Keep Moving

Jessy Lanza

I'm watching everywhere you move
I follow everything you do
Keep moving all around the room
To show them that it's all for you You're backed in, ???'s all you got
Just tell me if you care enough
Cause you make it hard for me to stop, boy When you look at me, look at you
I know every word, is true Baby, that would be the first time
That would be the first time (X4) Keep moving, looking straight ahead
Not thinking of the consequence
Just wanna - wanna make you turn around
But it seems to only bring you down So I follow - follow everywhere you go
You know what - know just what I do it for
Cause I'm losing all my self control When look at me, look at you
I know every word, is true Baby, that would be the first time
That would be the first time (X8) Keep on moving
Gotta keep on moving (til end)
