

Swoon

Marie Digby

[Verse 1] Fashionably late
I'm last in
I played the cards
Time to cash in
All the girls here is lookin' like Maxim
Movie star life so it's lights, camera, action
So lemme direct
Only one word matters,
So let's call it respect
I am
Locked in from the minute I walk in
Through the middle of the floor
So let's call it collect
Well I don't need a gameplan
I rock the club like a
Motherfuckin' caveman
I was prayin' for these bottles and models,
but now I got 'em
So now I'm chillin' in the back saying "Amen"
This too much fun
You see, we finally startin' to get it like we should
Like you been playin' 'lotto for life
And it look like you just won
So when they see you and you're lookin' this good
Everybody gon' swoon
[Chorus] Out here the parties never end too soon
Happens every time I go and step up in the room
I do it like that so lemme see ya,
Lemme see ya swoon,
Yeah, lemme see ya swoon
We can set it off, make the bass go boom
Do it so fly, I could take you to the moon
We gon' run it back, so lemme see ya
Lemme see ya swoon
Yeah lemme see ya swoon
[Verse 2] Walked in,
Place froze up
Nowadays everybody shows up
It's like that

From the minute that we pulled up
We gon' shut it down

Until the club close up
Table in the back, yeah,
I got ya

See whatever you want,
I won't cost ya

Welcome to the life,
Yes we do this every night

'Cause you know that all the bras

Pop off like cheap vodka

Girls around me lookin like a huddle (Yeah)

I need a hand; I could use a stunt double

Somebody save me

'Cause I'm getting into trouble

See I tired out your girl,

Now all she wanna do is cuddle (Ha ha)

I could get used to this

'Cause you know we gonna do this all the time

I walked up "Excuse me miss,

You're turning heads when you're lookin so fine..."

(Chorus)

[Verse 3]After all the drinks I consume,

Party all night, running on fumes

Same clothes like I'm the cartoons

'Cause I went and did it hard from midnight to noon

Come around every time I sing a tune

All the girls are lookin' like Heidi Klum

Now everything' I'm reppin' is smelling like perfume

And they do the same thing

When I step in the room, they swoon....

(Chorus)

Girl, you gotta swoon

(Chorus)

(Let me see you swoon)

(Ha) Swoon

Yeah Let me see you swoon

Yeah Let me see you swoon

(Let's get it)

(Swoon)

We gon run it back so lemme see ya

(Get it? Good)

Swoon
