

Mercy

TV on the Radio

[Verse 1]

I caught a glimpse of professional evil on the day our poor hearts died

I fell in love with professional evil on the day you left my side

I've seen tons of people looking lost and lethal

And I think we're all the same

So I scale a steeple and i take a leap

But I just can't keep the stain![Chorus]

From my soul

It felt so cold

It's got to go

Through my soul

Through my soul[Verse 2]

Things fall apart in the blink of an eye, better keep yours open wide

Things fall apart in the blink of an eye, but it can't be satisfied!

I've seen tons of people looking lost and lethal

And I know we're all the same

But i know it's gone forever and there's nothing to keep

But I still can't' scrape the stain[Chorus]

From my soul

It burns so cold

Oh watch it go

Through my soul[Bridge]

Have mercy on (my life)

What can we do (to me, my life)

Doubt over me (my life)

Doubt over you (can't be my life)

Not overboard (my life)

Run two by two (can't be my life)

Run over me (my life)

Run over you (can't be my life)[Intense Outro]

I know my life!

Can't be my life! [6x]Have mercy love

On my life

Have mercy love

Have mercy

Have mercy, mercy, mercy on my life
