

# Overlove (Dream Evil) (1987)

Dio

Seems like heard this song a thousand times before  
He just wanted her but she wants more  
So build a wall  
Keep it all to herself, oh Always never seemed to be too much  
Reaching out became a spider's touch  
Wrapped in chains  
Sad remains  
Another victim of Over love  
Over love He was just the devil in a thing disguise  
Jealousy behind the greenest eyes  
Turn the page  
Close the cage  
On another victim of Over love  
Over love, yeah  
Over love  
Over love  
Over love, over love Mamma never left her baby all alone  
Baby never knew when she was grown  
Now mamma's gone  
And come the dawn  
You got another victim of Over love  
Over love  
Over love  
Over love, love, love, love, love  
Over love
