

Let Me Go

[Scott Stapp](#)

Tell me friend is this forgiving
Tell me friend are you believing
Tell me friend if it's worth the fight So please let me go
So please let me go
Let me go What's the use of our deceiving
What's the use so stop retreating
We are lost and all our hope is gone So please let me go
So please let me go
Let me go So please let me go
So please let me go
Let me go Once a boy I was forgiven
Now a man I'm lucky living
Always know our memories will live on We'll live on
We'll live on
We'll live on
We'll live on So please let me go
So please let me go
Let me go So please let me go
So please let me go
Let me go
Let me go
