Darling Angel

Rebel Souljahz

Yeah Woah Darling

I'm so happy you're with me
And i knew you were the one
It was just like my dream
We were falling in love
And i say

Baby i love you (i love you)
And i mean it from my heart yeah
There's no one (no one)
Who can take your place girl yeah

You're my darling angel yes you are (but i'm singing you're my darling baby girl)
You're my darling angel yes you are (yes you are you're kinda love no man can let it go)
You're my darling angel yes you are (every night every day girl you got to know)
And i knew it from the start

Now i'm sitting on my bed (sitting on his bed now)
Said i'm wondering what you're thinking of (wondering what you're thinking of)
Cause i got so much things to say
You're my darling angel from above
And i say

Baby i love you(i love you)
And i mean if from my heart yeah
There's no one (no one)
Who can take your place girl

You're my darling angel yes you are (but i'm singing you're my darling baby girl)
You're my darling angel yes you are (yes you are you're kinda love no man can let it go)
You're my darling angel yes you are (every night every day girl you got to know)
And i knew it from the start

Cause when my world seems to come tumbling down
Oooh oooh oooh
I look forward to seeing your face
Oooh oooh oooh
It's the greatest feeling when you're around

Cause no one can take you're place

You're my darling angel yes you are (but im singin you're my darling baby girl)
You're my darling angel yes you are (yes you are you're kinda love no man can let it go)
You're my darling angel yes you are (every night every day girl you got to know)
And i knew it from the start yes i did yes i did girl
And i knew it from the start from the start from the start girl
And i knew it from the start
Angel Girl
