The Sixth Extinction

Lock Up

Darkness is a knife, gray skies hide
A refuge in sickness, stealth contempt
Pre-emptive rapture dawns
Post human cult is bornSixth extinction
When the war is lost
Do you cash in your will to survive?
The sixth extinction
The sixth extinctionSentient machines, mankind's offspring
Mortal fantasies, techno witchery
Testament to creation
Snuffed out in a single breathSixth extinction
When the war is lost
Do you cash in your will to survive?
The sixth extinction
When the war is lost
Do you cash in your will to survive?Genetic reverse evolution
Immortality spawned in circuitry
Genetic reverse evolution
The prototype of things to comeThe sixth extinction
The sixth extinction
