

A Kiss To Send Us Off

Incubus

Meet me here
On November 11th, come alone
Bring your mouth
And selective irreverence, we'll both see stars, just
One more time
Kiss before the sky falls
Out from
This cloud we're hovering on
A kiss to send us off
A kiss to send us off
A kiss to send us off
Kill your doubt
With the coldest of weapons, confidence
And no more words
Just the sound of resplendent, tongues colliding
One more time
Kiss before the sky falls
Out from
This cloud we're hovering on
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
Here I am, there you are
On a wire connecting our hearts
There's a string, and it's tied
To a kite
There's a storm in the sky
Now the clouds become electric
There you are, here I am
Could I?
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
A kiss to send us off
