

# On Frozen Fields

## Dismember

I rise from my trench  
Blood rushing in my head  
Out into no-man's land  
Out to join the deadSick of living  
Unwilling to die  
Killing  
Just to stay aliveOn frozen fields of horror  
March through the firestorm  
Mingled victims lay  
Forgotten and forlornTo voiceless cries  
Only the deaf ad here  
Blinded I rage  
UncontrolledFool killing fool  
Conflict makes us tick  
Pig killing pig  
The human race is sickPain twist my body  
As my enemy splits my face  
Another fucking victim  
Left to die in a bloody hazeSick of living  
Unwilling to die  
Killing  
Just to stay aliveFool killing fool  
Conflict makes us tick  
Pig killing pig  
The human race is sick
