Eternal Rains Will Come

Opeth

Eternal rains will come
We should say goodbye
Suffer on our own
Song that thoughts were homeSo want to keep the darkness from seeping through
When the flood comes to drown us, there's nothing we can doTold me not to wait
Lest I could fade forever
'cause there's no time for us
To comfort in what wasSo want to keep the darkness from seeping through
When the flood comes to drown us, there's nothing we can doHere it comes
On the cusp
It might seem
Can't forgetReaching for the surface, I see you
