Stop the Bleeding

Sarah Darling

Can't run fast enough or get far enough away
Everywhere I go you're there
There's gotta be some place
Where I can give my heart a break
But you are up and down all around like airAll I really need is a little bit of distance
But here you are again breaking down my resistanceStop my heart from holding on to someone I should never have believed in
Stop my hands from reachin'
Stop my tears from rollin' like a river on a rainy day
Someone stop the bleedingIt doesn't get easier no matter how much time goes by
I been just pretending I don't care
I gotta get past the point
where I get tangled up inside
Anytime I see you anywhereI'm never far away from becoming a disaster
They say I'm gonna heal, but I gotta do it fasterStop my heart from holding on to someone I should never have believed in
Stop my hands from reachin'
Stop my tears from rollin' like a river on a rainy day
Someone stop the bleedingI don't wanna wake up fragile in the morning
So leave my mind so I can sleepStop my heart from holding on to someone I should never have believed in
Stop my hands from reachin'
Stop my tears from rollin' like a river on a rainy day
Someone stop the bleedingIt's time to start the healing
