

Shitface

Osker

Hey shitface

Weren't you the one who told me anything?

Hey shitface

Weren't you the one who put me down? Isn't it funny that you're still around?

I find it awkward that that you're here now

Isn't it funny that you're still around?

I find it awkward that you're here now Hey shitface

Weren't you the one who told me anything?

Hey shitface

Weren't you the one who put me down? Isn't it funny that you're still around?

I find it awkward that that you're here now

Isn't it funny that you're still around?

I find it awkward that you're here now
