

Sweet Thing

Blue

You show up, walking in the place like what what
I've never seen a girl like that tight
How could anyone deny your shine
Spot me chilling in the club with plan B
Gotta make it work this time
Second time around - it's on tonight What you do
When you move
Got me frozen to the spot
And I can't afford to stop Chorus:
Sweet thing! You're as bad as you wanna be
Sweet thing! It ain't never been this hard for me
You're the brightest thing that I've ever seen
Diamonds blind ya - you with me? Sweet thing! You're as bad as you wanna be
Sweet thing! It ain't never been this hard for me
Don't know what to do when you shine at me
Diamonds blind ya - you with me? Girl you, make me wanna fall in love true
Did you hear what I just said?
Gotta find a way inside your head?
Check it , I ain't even frontin'
She said, She don't need a man but I'm
Gonna be the one to change her mind What you do
When you move
Got me frozen to the spot
And I can't afford to stop Chorus: I've seen you, now I'm never turning back
I don't care anymore and that's a fact
Now, You are my everything
Since you came my way
Straight up, you're the only one I want
Right here is the chance to get it on
I want you to trust me...
I can't move when I'm around you Chorus:
