

# Clean Coloured Wire

## Engineers

Take it all away  
Did you hide and make yourself  
Straight to halt their pleas  
All the signs are there Respite from what you feel  
Given time we've learned to share  
Don't compensate for me  
Will I find you there Do my best to steer my goals  
Clean coloured wire makes the right hole (Do my best to steer my goals  
Please pull in tight make the right hole) Try to make me stay  
Had to fight for recompense  
Don't put the blame on me  
All the signs are there  
Filtered by a friend  
Even time's not playing fair  
Don't pin your hopes on me  
Still I find you there  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
