Fall

Michelle Branch

You have a question
I need an answer
You'd never know
How scared I am
Falling in love
You would talk softly
You are a riddle
And I felt so innocent
Standing in your eyes
So hear me now
I'll scream out loud
Can't figure out
How you entered into my world
And I fall down
You are the vision
I'm always seeing, ooh
And being alone right there with you
Left me satisfied
You're all I need in life
So hear me now
I'll scream out loud
Can't figure out
How you entered into my world
And I fall down
And I fall down
Ooh, ooh
And now what can I say
I'm so far away
Waiting for the day when I'll be
Standing in your eyes
In your eyes, whoa, oh, ooh
So hear me now
I'll scream out loud
Can't figure out
How you entered into my world
And I fall down
And you crash into me
