Just A Little Sign

Helloween

Here I stand alone again
Hundreds all around
(Hundreds all around)
Didn't come here to make a friend
But to listen to the sound
(Listen to the sound)Something's growing in my pants
As she looks into my eyes
Now I smile the whole damn night
But my dream acts cold as iceIt's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little signShouldn't I dare to talk to her
But what is it I would say
(Is it I would say)
Surely I'd look like a clown
For my smiles freeze on my faceIt's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little signIt's time for just a little sign
It's time, make believe the world is mineIt's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little sign, just a little sign
