

# Just A Little Sign

## Halloween

Here I stand alone again  
Hundreds all around  
(Hundreds all around)  
Didn't come here to make a friend  
But to listen to the sound  
(Listen to the sound)Something's growing in my pants  
As she looks into my eyes  
Now I smile the whole damn night  
But my dream acts cold as iceIt's time for just a little sign  
It's time, make believe the world is mine  
It's time for just a little sign  
It's time, make believe the world is mine  
Just a little signShouldn't I dare to talk to her  
But what is it I would say  
(Is it I would say)  
Surely I'd look like a clown  
For my smiles freeze on my faceIt's time for just a little sign  
It's time, make believe the world is mine  
It's time for just a little sign  
It's time, make believe the world is mine  
Just a little signIt's time for just a little sign  
It's time, make believe the world is mineIt's time for just a little sign  
It's time, make believe the world is mine  
It's time for just a little sign  
It's time, make believe the world is mine  
Just a little sign, just a little sign
