Annihilation

Devotchkas

We all know it's like a game
Pieces of flesh involved in pain
Day after day, same old thing
Try different lives but always the same
Have the time of your lives
One more day 'till another dies
We all know it's bound to come
But who would have guessed, the other side would have wonPlaying life like a movie, everone's got their role
Some make it big, the others pay the tollTime has come to stay alive
Annihilation of our kind
The scene is dying, maybe its dead
Just another fucker you wanna kick in the head
Try to find piece of mind
Keep on trying, its hard to find
People fuck you over the first chance they get
Never trust no one, my mind is set
Believe what you will, try believing in me
I'll tyr to take you ther to make you see
Stop the bull shit, enough is enough
Try to be so hard but I called your bluff.
