Trip and Glide

Neve

Hold on tight as we trip and glide
Come along and enjoy the ride
Tonight we'll touch the skyStars won't shine and birds won't sing
I'm going to give you a real good thing
Tonight we'll trip and glideComing down the mountain
Never felt so good
Could you leave my own
Unconsciousness alone
Trip and glideGoing up and coming down for you
Doesn't seem as perfect as it's supposed toScream at night while you wait inside
Coming along never feel surrounded by
I feel like dancing rewind
I feel like flying sometimes
I feel like dyingComing down the mountain
Never felt so good
Could you leave my own
Unconsciousness alone
Just trip and glideGoing up and coming down for you
Doesn't seem as perfect as it's supposed toStars won't shine and the wind won't speak
I don't believe my sense of clarity would lie
'Cause when you think there's just no giving upThe more you think the less we dream
It's true when there is nothing to decide
Just trip and glideGoing up and coming down for you
Doesn't seem as perfect as it's supposed to
