

# Video Idol

## Meredith Brooks

I hear a knock on my door, I hear the telephone ring  
But I can't break away, I'm just ignoring all those things  
My eyes are glued to my TV  
You're up there making love to me  
I fell in love with you, I'm watching your love scenes  
I had to have you every night upon my TV screen  
I rent your tape again and again  
I never want this love to end

Video idol

Every night I escape with your video tape, you're my video idol  
Everything will be right When I watch you tonight, you're my video idol  
Now there's nobody else, I've got you to myself, you're my video idol  
My TV comes to life when you come on the screen  
I keep on watching though, I know I'm living in a dream  
Tonight when all my work is through  
I'll have my fantasy with you

Video idol

Every night I escape with your video tape, you're my video idol  
Everything will be right When I watch you tonight, you're my video idol  
Now there's nobody else, I've got you to myself, you're my video idol  
Maybe someday I'm gonna meet you  
And then our loving will be for real  
But till then I'll have to pretend  
About how good, how good it would feel, hey

Video idol

Every night I escape with your video tape, you're my video idol  
Everything will be right When I watch you tonight, you're my video idol  
Now there's nobody else, I've got you to myself, you're my video idol

Video idol
