

# One Man

## Eulogies

What I took from the  
Doesn't make me miss you any less  
If I believe in something  
All receive somethingWhat I took form your life doesn't  
Doesn't mean ill, think again  
When I fall down around you  
All down around youJust a drive in your car  
I want to keep going so many miles  
All the way without you  
Not the same with out youI learned something  
You and that guitar  
I'm only one man  
I'm only one manDon't keep it outside  
At least take it in  
Give it a good shot  
No use in tryingI learned something  
You and that guitar  
I'm only one man  
I'm only one manI learned something  
You and that guitar  
I'm only one man  
I'm only one manI'm only one man  
I'm only one man
