Going Psycho

Los Creepers

Tried of living good
The way you think I should
Tried of living right
And I wanna fight tonightTime to go out, have some fun
Steal a car, cruise around
Listen to music all night long
Causing trouble is where I belongSpray paint in hand is all I need
to make my mark on society
The laws you make I'll always break
and you can't stand meIn my mind I'm about to crack
I'm telling you now, better stand back
Feel myself on the edge
waiting to fall over the edge.
