## Lindsay Lohan

Is that someone you used to date?  
Why's she hanging around here, what's her story?  
Doesn't she know that it's too late?  
That the party is over and the car is for me  
Why don't you tell her what's been goin' on?  
'Cause she seems to be dreamin' instead of just leavin'  
If you don't have the heart to fill her in  
Then just step aside and let me lay it on the line  
'Cause you're mine  
And tonight you don't revolve around her  
You're mine  
And this time I'm gonna scream a little louder  
Don't wanna be like  
Every other girl in the world  
Like every other one who wants you  
'Cause when I see you, something inside me burns  
And then I realize I wanna come first  
I wanna come first  
You look at me and I just die  
It's like heaven arrivin' in my mind  
And I can't believe all this jealousy  
I used to be a girl who could let a guy breathe  
But you're mine  
And tonight you revolve around me  
You're mine  
And this time I'm gonna get a little louder  
Don't wanna be like  
Every other girl in the world  
Like every other one who wants you  
'Cause when I see you, something inside me burns  
And then I realize I wanna come first  
I wanna come first  
Don't wanna be like every girl who's tried to get you  
I wanna be the one who's never sorry that she met you  
I wanna come first  
I wanna come first, hey!  
Don't wanna be like  
Every other girl in the world  
Like every other one who wants you

'Cause when I see you, something inside me burns  
And then I realize, I wanna come first  
Don't wanna be like  
Every other girl in the world  
Like every other one who wants you  
'Cause when I see you, something inside me burns  
And then I realize I wanna come first  
Every other girl in the world  
Like every other one who wants you  
'Cause when I see you, something inside me burns  
And then I realize I wanna come first
