New Edition

Cobra Starship

Hey, Mr. DJ, can you put my favorite record on?
'Cause I just saw my favorite kind of baby
She got bamboo earrings and a bad attitude
She got what I need to put me in a good moodShe said, "Excuse me, how you doin', boy?
I think we should dance"
And I said, "Let me tell you straight
Ain't got no time for romance"What you think I look like?
Do you think it's a game?
Oh, baby girl, just relax
I'll take your breath away, yeahBaby girl, you think you got a chance
Just because we danced
New edition, cool it nowBaby girl, I know it's kind of dark
But you should see my heart
It's not for you, girl, oh, please
Can't you see my heart now?
Can't you see my heart now?I can't breathe, girl
Can't you see my heart now?
Can't you see my? Can't you see my?
Oh, pleaseCan't you see my heart now, baby?
Can't you see my heart now?
Can't you see my? Can't you see my?
Can't you see my heart?Hey, baby boy, don't act like you this
'Cause I know that you're not that important
Well, if you wanna hang, I suggest you change your attitude
There's a lot of cute boys out tonight, yeahHey, baby girl, I'm scared, you're taking me the wrong way
'Cause I'm not trying to say that I'm the kind of dude
Who thinks he's way too good
I know that sometimes I seem rude but I'm telling you the truthBaby girl, you think you got a chance
Just because we danced
New edition, cool it nowBaby girl, I know it's kind of dark
But you should see my heart
It's not for you, girl, oh, please
Can't you see my heart now?
Can't you see my heart now?I can't breathe, girl
Can't you see my heart now?
Can't you see my? Can't you see my?
Oh, pleaseCan't you see my heart now, baby?
Can't you see my heart now?
Can't you see my? Can't you see my?

Can't you see my?'Cause just one night
So better slow it down
Just one night
You got to cool it now
Cool it now, girlCan't you see my heart now?
Can't you see my heart now?
Can't you see my? Can't you see my?Baby girl, you think you got a chance
Just because we danced
New edition, cool it nowBaby girl, I know it's kind of dark
But you should see my heart
It's not for you, girl, oh, please
Can't you see my heart now?
Can't you see my heart now?I can't breathe, girl
Can't you see my heart now?
Can't you see my? Can't you see my?
Oh, pleaseCan't you see my heart now, baby?
Can't you see my heart now?
Can't you see my? Can't you see my?
Can't you see my heart?
