

Back on Earth

Ian Astbury

The conscious state is changing fast
Trying not to worry about the past
Or if this moment should ever last
Coming back to earth real fast
Get high the real music hey yeah
Get high the real music hey yeah hey yeah
Get high the real music hey yeah
Till I'm back on earth again
Blood in your nostrils your head's divine
Blood in your hair but not your mind
You are not a victim of their design
Back on earth you know that I'm not blind
Get high the real music hey yeah
Get high the real music hey yeah hey yeah
Get high the real music hey yeah
Till I'm back on earth again
Get high the real music hey yeah
Get high the real music hey yeah hey yeah
Get high the real music hey yeah
Till I'm back on earth again
Again
Get high the real music hey yeah
Get high the real music hey yeah hey yeah
Get high the real music hey yeah
Till I'm back on earth again
Get high the real music hey yeah
Get high the real music hey yeah
Till I'm back on earth again
Till I'm back on earth
Back on earth again
Glad to see me again
Back on earth again
