

# Just Another

## Jinjer

Just another bruise earned  
One more lesson learned  
Just another kick from behind  
Just another punch in the eye  
Another broken tooth  
Against the bitter truth  
Over and over again  
I say: "No Pain - No Gain" I've never thought  
This nostalgia  
This ache could be everlasting  
Who's in front of me?  
I'll cut you deep like once you did  
For the first and the last time  
Past in a trash bag,  
No need to take it back  
Keep my heart spare  
Reanimated from despair  
Another bee-sting,  
Another fall from swing  
Over and over again  
I've got myself obtained I've never thought  
This nostalgia  
This ache could be everlasting  
Who's in front of me?  
I'll cut you deep like once you did  
For the first and the last time  
This nostalgia  
This ache could be everlasting  
Who's in front of me?  
I'll cut you deep like once you did  
For the first and the last time  
No!  
No pain again  
No!  
No pain again I'll cut you deep in forgiveness  
My pain transformed into your sickness I've never thought  
This nostalgia  
This ache could be everlasting  
Who's in front of me?

I'll cut you deep like once you did  
For the first and the last time  
This nostalgia  
This ache could be everlasting  
Who's in front of me?  
I'll cut you deep like once you did  
For the first and the last time
