

Back Street Lovers

Stratus

We meet alone, down by the bay
Underneath the bridge by the Lucky Cafe
She's never late, she's always on time
That little lovely girl, lover of mine
We can't be seen in the light of day
So we rendezvous and speed away
'Cause we're

* Backstreet, backstreet lovers
Hiding in the shadows
Hope no one discovers that we're
Backstreet, backstreet lovers
Trying to stay ahead of the game

I never tell her the way that I feel
Still, she'll understand me, we both know it's real
It's not a phase that we're both going through
It's something strong and we can't just refuse
We can't be seen walking hand in hand
So we see each other when we can
'Cause we're

* repeat
Oh yeah...

Hi... I need you
Oh, don't go back, stay here...

Backstreet, backstreet lovers
Hiding in the shadows
I hope no one discovers
That we're backstreet, backstreet lovers
Hiding in the shadows
I hope no one discovers
That we're backstreet, backstreet lovers
Hiding in the shadows
I hope no one discovers
That we're backstreet, backstreet lovers
Trying to stay ahead of the game
Ahead of the game
