Congratulations Smack + Katy

Reggie and the Full Effect

Girl, where's your head full of lead?
Can't you see what you're doing to me?
Wipe that disgrace off your face
Look and see what you've done to meGirl, you look bored
I wish everything about the danger wouldn't make you such a stranger
So what's the deal?
Don't you feel what i'm dealing with?
But it's alrightGirl, come on, I'll show you how to deal with this.
But not tonight.Girl, you look bored
I wish everything about the danger wouldn't make you such a stranger
Hold me so close
I can tell you have the best intentions, one of those simple inventions
Never a dull situation, we could just stay on vacationNever start an argument with you
Something I won't doGirl, you look bored
I wish everything about the danger wouldn't make you such a stranger
Hold me so close
I can tell you have the best intentions, one of those simple inventions
Now that I have your attention
