

Right On (feat. Joanna Newsom & STS)

The Roots

[Chorus]

We should shine a light on, a light on

And the book I write on, write on

Here we write on

We should shine a light on, a light on

And the book I write on, write on

Here we write on Yo, I try to get it how I live it

A lot of people countin' on me kinda like a digit

It's a cold world; I'm not frontin' like it isn't

There's no time for comin' up shorter than a midget

Y'all know I'm-a raise the bar though like Bridgette

See every star go; don't blink--you might miss it

It's precious cargo--you gotta be strong to lift it

The light comes in different types; be more specific

Shit, I'm Blackthought--what could be more prolific?

For this love I go above and beyond the limit

I told y'all I'm above and beyond the gimmick

I get into your head and spread like a pandemic

I never put myself in a race I can't finish

I'm well grounded, founded on the same premise

As any man with a hit list, it's 'bout business

Yo, can a brother get a witness? Dig it; right on [Chorus] A'ight, okay, I'm above and beyond hot

My measurement in watts

Time rate and flow of energy ain't never gonna stop

Pressure's on, I won't pop; microphone I won't drop

Gym stones, niggas copyin' shit if I ain't in the spot

It's the Orion that I hop, the new star to hit

I shine a light for the future so my presence's a gift

It's evident I'm Heaven-sent with Thomas Edison elements

Reverent for what I represent to show my benevolence

This is Dilly; I'm reppin' for the art of the city

Came from Southwest Atlantic and gave my heart to the city

Where slugs fly, thugs cry 'cause every part of it's gritty

Niggas shootin' up the club like they party with Diddy

You pick the diggy; I put my incandescence to fluorescence

And an essence I convert with (?) for energy per second

I put 'em on the lessons while I'm smokin' on a pleasant

A switch hitter like Pete Rose, right at the session

Right on
