No Age

I couldn't make it cold so that's what I become
Looks like the cop was wrong I'm not the only one
Do it every day for school see the damage done I couldn't make him mad he's useless and alone
They make you look ugly and party for a home
Are you confused why this is not his zone?
He had a son but his son died fell apart he's cold I couldn't make it cold so that's what I become
Looks like the cop was wrong I'm not the only one
Do it every day for school see the damage done
He had a son but his son died fell apart he's cold Please decide for me and I could make it warm
There's bottles everywhere and soft spots in my son
They took me out and took me young the damage has
been done. It's not a cop it's not a dad but look what
I've become
