Great Big Problem

FFH

You were once with me but you decided to turn
Now my jealousy is a fire that burns
To the core of me when will I ever learnI could walk away but that wouldnt be like me
I could turn my face but then I couldnt see
You coming back to me Im waiting for that dayIve got a great big problem
You cant ever get to the bottom of
My love, no matter what you do
I cant let you goIve got a great big problem
You cant ever get to the bottom of
My love, I cant let you goYou refuse to be the one I meant for you to be
If you could only see how this is killing me
Youd come back to me I would set you freeI call your name but its always the same
You walk away its always the same
