Hello the End

Alex Lloyd

This is the end, my friend
The end, my friend, the end
I hope to see you again, my friend
Again, my friend, againAnd I didn't want to hold you back
And I didn't want to see you off now
Down the wrong trackElusive personality
I think you know as much as me
No secrets that you're hidingCount 4 and we'll begin again
We'll begin again
This time, release, my friend
Release, my friend, the endAnd I didn't want to hold you back
And I didn't want to see you off now
Down the wrong trackThis time, it makes so sense at all
I'm standing still while others fall
Keeps shrinking every secondHello
The end, the end
The end
