

# Hello the End

[Alex Lloyd](#)

This is the end, my friend  
The end, my friend, the end  
I hope to see you again, my friend  
Again, my friend, again And I didn't want to hold you back  
And I didn't want to see you off now  
Down the wrong track Elusive personality  
I think you know as much as me  
No secrets that you're hiding Count 4 and we'll begin again  
We'll begin again  
This time, release, my friend  
Release, my friend, the end And I didn't want to hold you back  
And I didn't want to see you off now  
Down the wrong track This time, it makes so sense at all  
I'm standing still while others fall  
Keeps shrinking every second Hello  
The end, the end  
The end
