Love Via Computer

Techniques Berlin

You want a girlfriend
As fast as you can
You think without her your not a man
Go to a branch office get a questionnaire
Say you want a tall girl who has blonde hair

Will find you a women
With a computer
Custom tailored love to suit all your hopes and dreams
Tell us your ideal then you can have her
Thereâ€™s a number in the computer to fulfil your fantasy

Sheâ€™s the most gorgeous woman money can buy
You wanna make her yours till the day you die
You go out on your first date tonight
And thank the computer for being so right

We deal with lonely hearts
With the computer
And make lots of money with all your hopes and dreams
We get your ideal then you can have her
And you pay us all to fulfil your fantasy

You find out a farce who wants someone else
To send her back to use and then we can help
Send us your check at the end of the week
Donâ€™t worry well find the woman you seek

Will find you a women
With a computer
Custom tailored love to suit all your hopes and dreams
Tell us your ideal then you can have her
Thereâ€™s a number in the computer to fulfil your fantasy
