

# Club Paradise

**Jimmy Cliff**

No man is an island Jack  
You could be tougher than a rock  
One and one's got to make contact  
To get on the right track yeah  
When you see in your life something missing  
And for all the good things that you're wishing  
There's a place you can go where the vibes are nice just like paradise  
Sweet paradise, sweet paradise, club paradise, sweet paradise  
Island Jack said he ain't going back to the USA  
Just rub that coconut oil on his back  
Said he's here to stay  
'Cause he's found in his life what's been missing  
And for all the good things he's been wishing  
  
Said you'll find me where the vibes are nice and the price is right  
Club paradise, sweet paradise,  
club paradise, sweet paradise whoa yeah whoa yeah  
No man is an island Jack  
You could be harder than a rock  
Ones and ones got to make contact  
To get on the right track  
When you see in your life something missing  
And for all the good things that you're wishing  
There's a place you can go where the price is right just like paradise  
Sweet paradise, club paradise, happy, happy paradise, sweet paradise  
You will find me there yeah  
Come and check out the vibes  
Happy, happy paradise whoa yeah whoa yeah club paradise
